

PRODUCT DESCRIPTION

<p>PRODUCT</p>	<p>RUBY 10-3-5 w/ Calcium, Magnesium, Sulfur & Micros (GROW 10-3-5)</p>
<p>DESCRIPTION</p>	<p>RUBY is your all-in-one, high concentration, nutrient delivery solution complete with all essential secondary nutrients and complemented by a beneficial assortment of chelated Micronutrients.</p> <ul style="list-style-type: none"> RUBY showcases an elevated level of Nitrogen utilized quickly by the plant to initiate growth of strong towering shoots during its vegetative phase while spoon feeding available forms of calcium, magnesium and micronutrients in preparation for bloom. <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

<p>PRODUCT</p>	<p>EMERALD 5-16-10 w/ Calcium, Magnesium, Sulfur & Micros (BLOOM 5-16-10)</p>
<p>DESCRIPTION</p>	<p>EMERALD is your all-in-one, high concentration, nutrient delivery solution complete with all essential secondary nutrients and complemented by a beneficial assortment of chelated Micronutrients.</p> <ul style="list-style-type: none"> EMERALD showcases elevated levels of Phosphorus and Potassium for flourishing, vibrant blooms while spoon feeding available forms of calcium, magnesium and micronutrients to ensure healthy plant growth. <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

<p>PRODUCT</p>	<p>ONYX ROOT BOOST 1-0-1 Harmonized Humic & Fulvic Acid with Rich North Atlantic Seaweed (START 1-0-1)</p>
<p>DESCRIPTION</p>	<p>ONYX Root Boost is your natural vitamin rich solution of North Atlantic Seaweed, harmonized together with Humic and Fulvic acid for developing a massive foundation worthy root system.</p> <ul style="list-style-type: none">• ONYX Root Boost will not only yield an extraordinary root foundation but also when applied prior to harvest will supply the desired stimulants, enzymes and nutrients needed to produce hearty rich blooms with savory aromas.• ONYX Root Boost contains an extract of 75% North Atlantic Seaweed and 20% Humic and Fulvic Acid, making it one of the most concentrated beneficial combination available. Individually, the Seaweed and the Humic and Fulvic Acid will chelate nutrients, making them more available for uptake by the plant.• ONYX Root Boost Improves Plant Health, Root Mass, Chlorophyll Content and Drought Tolerance while Promoting strong cell walls and proper plant growth through sources of Auxin, Cytokinin and Gibberellin Hormones. <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

<p>PRODUCT</p>	<p>SAPPHIRE CAL MAG w/Cation Chelation Technology (GROW 4% Ca, 2% Mg)</p>
<p>DESCRIPTION</p>	<p>SAPPHIRE CAL MAG is your concentrated revitalization elixir of chelated Calcium and Magnesium used to prevent, and correct, the deficiencies of these critical secondary nutrients that ensure proper plant development.</p> <ul style="list-style-type: none"> • <i>The nutrient delivery system of SAPPHIRE CAL MAG functions both in the xylem, and phloem, providing systemic translocation of nutrients by way of a proprietary sugar chelate, surfactant and wetting agent combination.</i> • <i>Calcium & Magnesium are positively charged cations that make up two of the three secondary nutrients most essential for plant life vigor and sustainability.</i> <ul style="list-style-type: none"> - <i>Calcium is important for cell wall formation, cell division and the overall growth of the plant. When a plant becomes deficient in calcium, the cell wall weakens, and the plant becomes susceptible to disease.</i> - <i>Magnesium is responsible for converting light into energy and is a building block of Chlorophyll, the green pigment of the plant. When a plant becomes deficient in Magnesium it struggles to properly photosynthesize.</i> - <i>Calcium is also responsible for regulating chemical reactions for stress reduction. A fitting example of this, is calcium's ability to prevent the devastating physiological disorder in tomatoes known as blossom end rot.</i> <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

<p>PRODUCT</p>	<p>DIAMOND BURST 3-10-10 w/ B- Vitamins, Amino Acids & Carbohydrates (BLOOM 3-10-10)</p>
<p>DESCRIPTION</p>	<p>DIAMOND BURST Is your concentrated supplemental source of Potassium and controlled Phosphorus with a Vitamin, Amino Acid and Carbohydrate Boost specifically formulated for producing Robust, Fragrant Rich Blooms.</p> <ul style="list-style-type: none"> • DIAMOND BURST offers a spoon-feed regimen of B-Vitamins, L-Amino Acids, seaweed extracts and sugar carbohydrates to alleviate the onset of stress as your plant is pushed vigorously to produce rich weighted blooms beyond its ability to do so naturally. <ul style="list-style-type: none"> - B-1 - B-2 - B-6 - B-7 - Choline - L-Alanine - L-Arginine - L-Glycine - L-Hydroxyproline - L-Isoleucine - L-Leucine - L-Lysine - L-Methionine - L-Phenylalanine - L-Serine - L-Threonine - L-Tryptophan - L-Tyrosine - L-Valine <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

<p>PRODUCT</p>	<p>CRYSTAL FINISH 2-0-0 w/ Glycine Betaine & Salicylic Acid (FINISH SUGAR-SHIELD)</p>
<p>DESCRIPTION</p>	<p>CRYSTAL FINISH is your premium sugar complex for enhanced crop flavor, fragrance and yield. Synergistically formulated with components to heighten nutrient uptake and activate the plants natural defense mechanism for increased tolerance to environmental stresses.</p> <ul style="list-style-type: none">• CRYSTAL FINISH provides a healthy carbohydrate sugar rush from glycine betaine that increase beneficial microbial activity while regulating water and increasing potassium and calcium levels within the plant cell. Our concentrated raw component used in the production of CRYSTAL FINISH has 21% organic carbon and 76% Brix.• CRYSTAL FINISH is boosted with Salicylic Acid (SA), recognizable as the active component in aspirin, a pain reliever for humans. Similarly, in plants, Salicylic Acid (SA) stimulates a plant's Systemic Acquired Resistance (SAR), a response which activates its natural defense mechanism against biotic and abiotic stresses. SA is also responsible for improving the plants ability to uptake nutrients systemically.• CRYSTAL FINISH function within the plant and soil to provide increased tolerance to environmental stresses such as, high-salinity, drought, frost and excessive heat. <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

PRODUCT	Amber Soil Ambrosia
DESCRIPTION	<p>Amber Soil Ambrosia is a soil conditioner that blends Humates and beneficial Mycorrhizae fungi that colonize the plant's root mass and increase its ability to absorb water and nutrients, while improving yields and health.</p> <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT	Jade Grow 20-5-10
DESCRIPTION	<p>Jade Grow promotes strong structural integrity and healthy foliage during the plant's vegetative phase. Along with nitrogen, phosphorous and potassium, our formula includes magnesium and the necessary micronutrients to ensure healthy nutrient uptake.</p> <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT DESCRIPTION

PRODUCT	Pearl Bloom 5-40-15
DESCRIPTION	<p>Pearl Bloom helps your plants produce a high yield of buds during its flowering phase. Along with nitrogen, phosphorous and potassium, our formula includes magnesium and the necessary micronutrients to ensure healthy nutrient uptake.</p> <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>

PRODUCT	Opal Overdrive 0-45-35
DESCRIPTION	<p>Opal Overdrive is designed to give your plant's flowers the boost they need to produce bigger flower clusters and bigger yields.</p> <p><i>All Plant Life Solutions are produced specifically for top-shelf crops that demand superior Macro and Micronutrient ingredients to ensure optimum nutrient availability and reduced waste.</i></p>
